Why choose Plastic frame

- Quality plastic

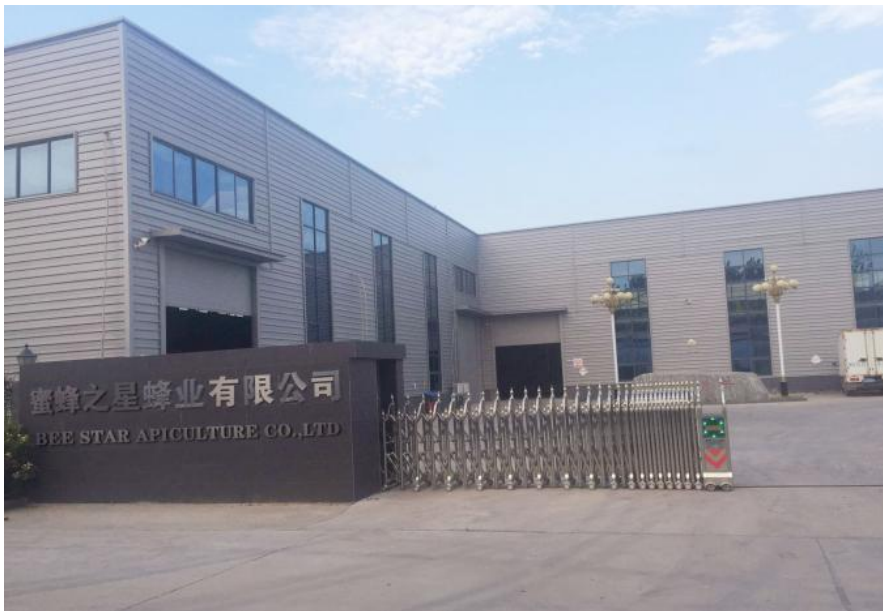

Plastic foundation is stronger than wax foundation. It does not need to be wired to beehive frames. Sheets of plastic foundation are available to beekeepers using wooden frames. The sheets snap into grooves cut on the inner surfaces of wooden beehive frames. They stay on and provide a plane on which honeybees can draw comb. Plastic frames often come with the foundation part molded from one plastic sheet. They give a stronger and continuous platform for bees drawing comb on frames.

- Durance

Plastic foudation is stronger than wax foundation. It does not sag in warm temperatures or break easily during honey extraction. the foudation stays straight for long and guides bees to build cells of your preferred size.

Bee Star---the most professional one-stop beekeeping platform, who is the first beekeeping group company consisting of several beekeeping products factories. For helping our customers to get the best quality, most competitive price and best after-sales service, we insist our everlasting business principle: Be honest and sincere to all customers, only supply great quality beekeeping accessories and 100% pure natural bee products.

Exhibition

F.A.Q.

1.Are You Factory/Manufacturer or Trading Company?

We are a trading company with special cooperation's with several local manufacturers of beekeeping products in China. Our wide arrange of manufacturers allow us to obtain a large variety of beekeeping products and equipment at a great competitive price.

2. Do You Offer OEM/ODM Service?

Yes, we have a rich experience in offering OEM/ODM service in some of our products. Design service offered. Buyer label offered.

3. What is your MOQ? Can we get a small order for the first time?

Our MOQ is based on the price, the lower quantity, the higher price. However, we can mix the order to reach the minimum and complete the order. Please confirm details with us.
