

High Durability Galvanized Metal Vertical Queen Excluder For Bee Hive

Our Product Introduction

for more products please visit us on bee-keepingequipment.com

Basic Information

- Place of Origin: China
- Brand Name: Bee Star
- Model Number: 10HS-05
- Minimum Order Quantity: 100 pcs
- Price: US\$3.04/ pcs--US\$3.62/pcs
- Packaging Details: carton package
- Delivery Time: 25--30 working day, depending on the order quantity
- Payment Terms: L/C, T/T, Western Union
- Supply Ability: 10000pcs per month

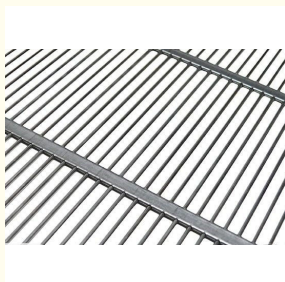

Product Specification

- Material: Iron
- Color: Metal Color
- Application: Queen Bee Farming
- Size: 47.5*33*1.4cm
- Highlight: honey bee hive kits, bee hive tool

Product Description

High Quality Galvanized Metal Vertical Queen Excluder For Bee Hive

Descriptions of Bee Hive:

King board is a special tool for beekeeping, which is generally made of bamboo or plastic. Its main function is to restrict the passage of queen bees. Due to different usage, it mainly includes plane King board, frame King board, etc. due to different suitable bee species, it includes Chinese Bee King board, Italian Bee King board, etc.

The queen board is a special tool for beekeeping. The design principle is that the Queen's chest is slightly thicker than the worker's chest. During the design, the grid gap of the queen board is designed to be between the thickness of the Queen's chest and the thickness of the worker's chest, so that the worker bees can pass freely. Because the thickness of the Queen's chest exceeds the gap width of the queen board, the queen can't pass through the queen board, so as to limit the queen to a certain area of the hive.

Function of Bee Hive:

The main function of the queen board is to restrict the passage of the queen bee. The queen board is often used in beekeeping production. For example, when forming a double queen group, the queen board should be used to separate the two queens. The purpose is to ensure that the two queens will not meet in the hive, otherwise they will fight until one queen bee dies. In addition, the queen board can also be used to restrict the queen bee from laying eggs and use the hive to produce honey.
