Product Description

Big Granual Rape Bee Pollen Raw Organic Food Grade Factory Directly Sale

Bee pollen is the food of the young bee and it is approximately 40% protein. It is considered one of nature's most completely nourishing foods. It contains nearly all nutrients required by humans. About half of its protein is in the form of free amino acids that are ready to be used directly by the body. Such highly assimilable protein can contribute significantly to one's protein needs.
