Product Description

90% Extract Bee Propolis Block Bee Products For Health Care from Bee star

About propolis:

A sticky resin material that bees collect from trees and other vegetation. Bees use it to reduce the size of the beehive's entrance and encase foreign objects. Propolis contains waxes, resins, balms, oils and pollen. Due to its antibacterial properties, it can be used in alternative medicine (tannins, ointments, creams, etc.)

Smell-Propolis has a special aromatic smell of resin. It tastes slightly bitter and astringent, and has a spicy and pungent taste. It is particularly sticky when chewed and gives off a frankincense-like fragrance when burned.

The Status of Bee Propolis For Beekeeping :

Strong natural bee propolis special smell,black color, block or paste status when get warmer.

Applications:

- 1) Enhance the immune power
- 2) Good source of antioxidants
