Product Description

Mixed Fresh Raw Honey Bee Pollen Full Of Nutricion Big Granual

Descriptions of Mixed Bee Pollen:

Bee pollen is a ball or pellet of field-gathered flower pollen packed by worker honeybees, and used as the primary food source for the hive. It consists of simple sugars, protein, minerals and vitamins, fatty acids, and a small percentage of other components. Also called bee bread, or ambrosia, it is stored in brood cells, mixed with saliva, and sealed with a drop of honey. Bee pollen is harvested as [food](#) for humans, with various health claims, one of them being that the fermentation [n](#) process makes it much more potent than simple flower pollen.

This type of mixed pollen is mainly sun flower pollen and wild flower pollen, full of nutricion , big granual.

Package: 1kgs per transparent aluminum bag, food degree, 20 kgs per carton, or 20kgs per food degree bag /carton

F.A.Q.

1.Are You Factory/Manufacturer or Trading Company?

We are a factory for beekeeping products in China with over 10 years experience. You can trust the quality and price of our products.

2. Do You Offer OEM/ODM Service?

Yes, we have a rich experience in offering OEM/ODM service in some of our products. Design service offered. Buyer label offered.

3. What is your MOQ? Can we get a small order for the first time?

Of course, you can. But we can't send small quantity by sea, so the price will be a little higher than larger quantity.

4. How About the Shipping Cost?

If the order is not large, we can send goods to you through air or express shipping methods such as FEDEX or DHL. If your order is large, we will send it to you by sea. Once the order is placed, we will quote the price to you. Generally, we always choose the most price-efficient option for you!
