Product Description

Big Granual Rape Honey Bee Products Pollen Bee Pollen

Product name	Natural rape flower bee pollen
Place of origin	China
Color	Orange

Bee pollen is the food of the young bee and it is approximately 40% protein. It is considered one of nature's most completely nourishing foods. It contains nearly all nutrients required by humans. About half of its protein is in the form of free amino acids that are ready to be used directly by the body. Such highly assimilable protein can contribute significantly to one's protein needs.

Bee pollen is rich in natural vitamins and minerals and also highly concentrated. It contains all the necessary nutrients of the human body which do good to our health !

Bee pollen has following functions as : nourishing the body tonic, robust brain agent, promotor of child development, edible beauty composition and a therapeutic agent for various diseases.

The drying process of pollen in our drying room.

Where is bee pollen from ?

Rape pollen is actually the pollen that the bees collect from the rape.

Our supplied bee pollen is from bees, and for feeding more bees.
