## Product Description

Pure Fresh Rape Pollen Raw Bee Pollen 100% Natural Bee Product With Big Granual

### Pure Fresh Rape Pollen Raw Honey Bee Pollen 100% Natural Bee Product with Big Granual

People likes eating pure bee honey, but some may does not know the bee pollen is also one kind of very good health care products which is both good for man and woman.

The color of the pure fresh rape pollen is yellow with special flavor, rich in protein, amino acids, fatty acids, vitamins, active enzyme and other active ingredients.

The main function of pure fresh rape pollen is :

- 1.Improve immune function
- 2.Protect the heart and reduce blood press
- 3.Detoxification function
- 4.Regulate endocrine and improve menopausal symptoms
- 5.Anti-aging

### Pure Fresh Rape Pollen Natural Food

Bee pollen is actually the pollen that the bees collect from the flowers. However, to be able to bring the pollen to their hive and store it for food, the bees moisten the pollen with their saliva turning it into a sticky substance which they can adhere to their rear legs. The pollen is then packed by the bees into small dust pellets, which are used as a food source for the male drones.
