## Product Description

### Pure Fresh Raw Bee Pollen 100% Natural With Big Granual

#### Pure Fresh Rapeseed Pollen Raw Honey Bee Pollen 100% Natural Bee Product with Big Granual

While many people enjoy pure bee honey, some may not be aware that bee pollen is also an excellent health care product beneficial for both men and women. Our pure fresh rape pollen features a vibrant yellow color with a distinctive flavor and is rich in protein, amino acids, fatty acids, vitamins, active enzymes, and other beneficial components.

### Key Health Benefits

- Enhances immune system function
- Supports heart health and helps regulate blood pressure
- Provides natural detoxification properties
- Helps regulate endocrine system and alleviates menopausal symptoms
- Offers anti-aging benefits

## What is Bee Pollen?

---

Bee pollen consists of the pollen that bees collect from flowers. To transport and store this pollen as food, bees moisten it with their saliva, creating a sticky substance that adheres to their rear legs. The bees then pack this pollen into small dust pellets, which serve as a vital food source for the male drones in the hive.
