Product Description

High Quality Sunflower Mixed Bee Pollen Raw Bee Pollen Bee Product Big Granuals

Bee pollen is the male part of the plant that must be joined with the female element for reproduction. Every small speck of pollen has all the ingredients to reproduce life. That means it has all the vitamins, minerals, enzymes, coenzymes, amino acids (protein), carbohydrates, male hormones and trace elements. It is a power house of living energy. Pollen is used by the bees as a high-protein food that they eat in addition to honey. The color and shape usually indicates the species of plant from which it was obtained, as well as the specific geographical region.

Product Details of Sunflower Mixed Bee Pollen
