#### Honey & Health

Sidr honey is a pure and original honey that has not been heated or filtered at all, retaining all its natural ingredients and unique taste.

Sidr honey, renowned for its unique properties and superior quality, is the purest and most nourishing form of raw honey available.

Sidr honey is generally considered safe to eat and offers many health benefits. Historically, it has been used for medicinal purposes and is thought to have antibacterial properties that may help prevent infections. Honey may be used for the treatment of certain sores, ulcers, and other wounds and can help soothe minor burns. For small cuts and abrasions, applying honey beneath bandages can potentially aid the healing process. Honey is also commonly used to suppress coughing, and according to studies, it is equal to or better than some cough syrups. Additionally, it may help soothe the sore, inflamed throats of people suffering from colds. Honey also has some antiviral benefits, which may boost one's immunity and prevent them from getting sick.
