### Product Description

#### BEESTAR Manual Stainless Steel 17L Honey Wax Presser

##### Product Description

This stainless steel wax presser is designed for beekeepers' daily wax pressing needs. The 17L large-capacity inner container can hold approximately 15-20kg of raw beeswax materials at one time, eliminating frequent disassembly and refilling.

##### Key Features

70% greater single pressing capacity compared to small-capacity wax pressers (5-10L), reducing daily operations for small and medium-sized apiaries

Ideal for centralized processing of beeswax after honey flow period, saving labor and time costs

Constructed from durable 304 stainless steel with high hardness, resistant to impact and deformation

8-10 year service life under normal use, 50% more durable than ordinary stainless steel wax pressing machines

Heavy-duty spiral pressure rod design utilizing lever principle for easy operation, even for female beekeepers

Suitable for bee farms without power supply or those preferring manual operation

##### Specifications

Our Product Introduction

Model name	wax press machine
Usage	beekeeping / apiculture
Material	stainless steel
Style	wax press with pillar
Tank size	28*27cm
Capacity	17L
Type	new type stainless steel wax presser
