Product Description

BEESTAR OEM/ODM Wholesale Portable Propolis Oral Care Mouthwash

Natural Aloe Extract Formula with Clean Smell

Natural propolis, known as "purple gold" for its scarcity, is a remarkable natural gift. The Pharmacopoeia documents its astringent and tissue-regenerating properties when used externally. Bees utilize propolis within hives to maintain sterile conditions and protect royal jelly from deterioration.

Key Features

Propolis Extract: Effectively improves oral health with astringent and tissue-regenerating properties, particularly beneficial for gingival bleeding.

Patented Ingredients: Unique combination of lipoic acid, propolis extract, and aloe vera extract provides antibacterial and bacteriostatic effects, helping with oral lesions in diabetic individuals.

Long-Lasting Freshness: Features a coconut rum flavor that mimics cocktails, rinsing away impurities while leaving a pleasant aftertaste.

Specifications

Specification	500ml per bottle
Ingredients	Patented Propolis, Lipoic Acid, Aloe Vera (Aloe Barbadensis Miller)
Key Benefits	Reduces gingival bleeding, oral ulcers, and bad breath - ideal for daily oral care
Target Users	Individuals with gingival bleeding, recession, bad breath, and diabetic patients
