Package size	43.5*43.5*76cm
Size	3 frame
Type	Manual

The honey extractor is used to extract honey from foundation by centrifugal force. Beekeepers and honey plants have different requirements for this product - some need small ones, while others need larger models. We can satisfy all your needs with our range of manual and electric honey extractors available in 2, 3, 4, 6, 8, 12, 24, 48, and 60 frame sizes.

We understand you may have different power, voltage, and electric plug standards. Don't worry - we will customize according to your country's standards. Just let us know where you're from. Our honey extractors are typically made from 304 stainless steel or 201 stainless steel, with stands made of stainless steel or red painted metal. While material differences affect cost slightly, all our products offer excellent value for money.

A superior quality honey extractor can serve you for many years. We care about your special requirements and always strive to provide the best quality products at competitive prices with excellent sales services.
