Product Description

Stainless Steel Portable Oxalic Acid Vaporizer With Battery And Iron Box

Professional honey beekeeping equipment designed for effective Varroa mite treatment in bee colonies.

Product Overview

This BEESTAR oxalic acid vaporizer features an ergonomic handle, digital display for precise temperature control, and compact portable design for convenient field use.

Purpose and Function

Primarily used to treat Varroa mite infestations in honey bee colonies. The vaporizer rapidly vaporizes oxalic acid, releasing a fine mist that penetrates beehives to effectively kill mites without harming bees or contaminating honey.

Technical Specifications

Name	Oxalic Acid Vaporizer
Output Power	20V
Construction Materials	301 Stainless Steel
Size	35*20*23cm
Weight	7kg

Product Variations

Powered by a 20V battery for easy, wire-free operation in apiaries, with a sturdy build to withstand field use.

Key Features

- Durable 301 stainless steel construction
- Battery-powered and portable design
- Effectively kills mites without harming bees or contaminating honey

Frequently Asked Questions

Manufacturing & Services

Are you a factory or trading company?

We are a factory with over 10 years of experience in beekeeping products manufacturing, ensuring quality control and competitive pricing.

Do you offer OEM/ODM services?

Yes, we provide comprehensive OEM/ODM services including custom design and private labeling.

What is your minimum order quantity?

We accept small initial orders, though shipping costs may be higher than bulk sea freight options.

How about shipping costs?

We optimize shipping methods based on order size, offering air/express for smaller orders and sea freight for larger quantities, always selecting the most cost-effective solution.
