Product Specifications

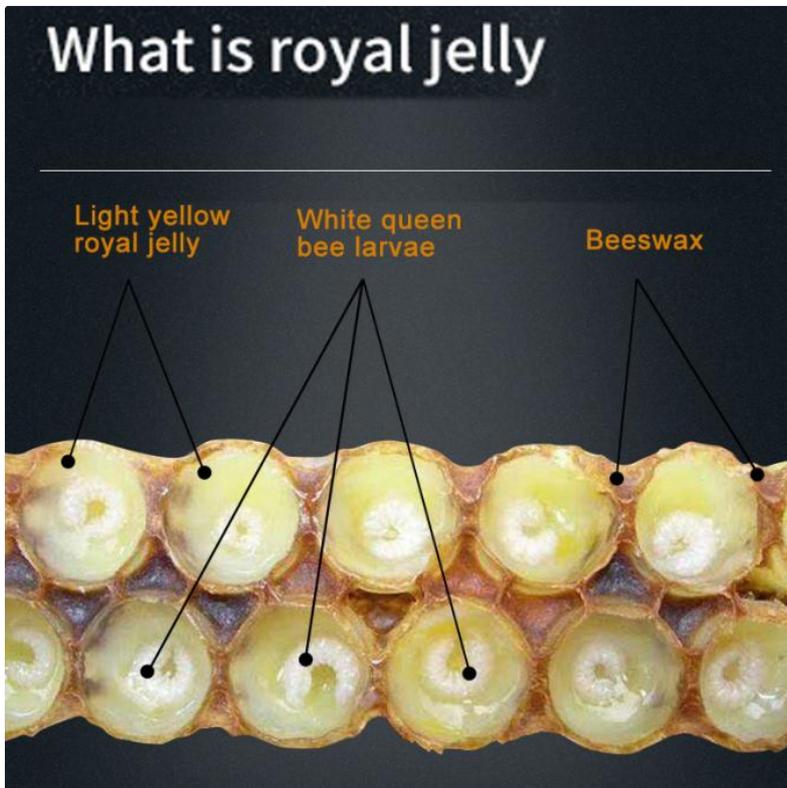

Item Number	26ZY-08-1
Product Name	High Quality Pure Fresh Royal Jelly Lyophilized Powder
Gross Weight	20 kgs per carton
MOQ	50 kgs
Package	1 kg per package, 20 kgs per carton

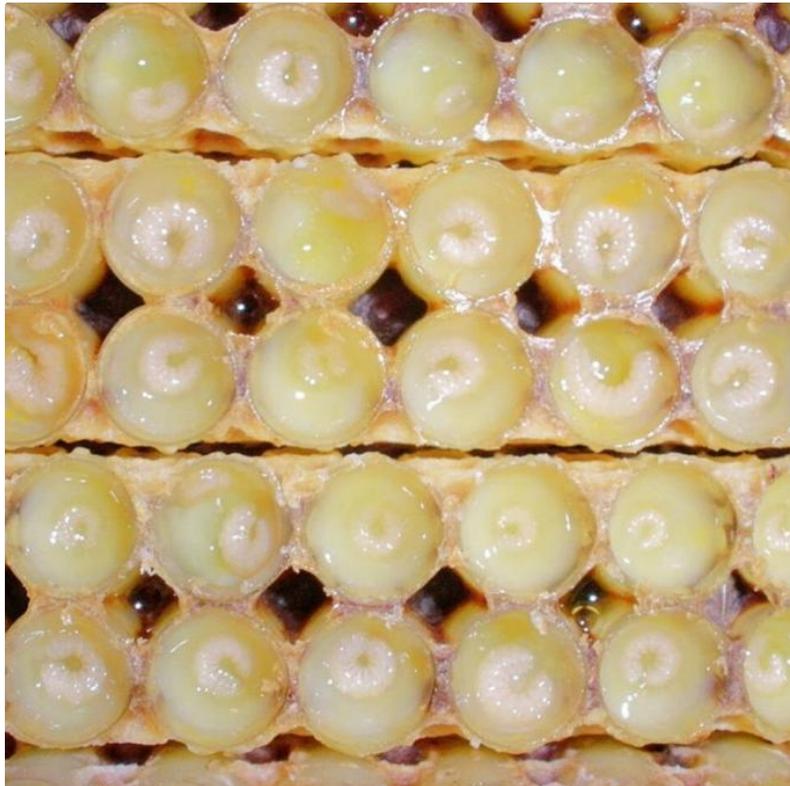

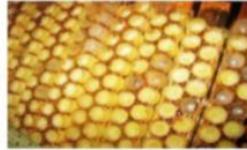

Pricing depends on order quantity - larger quantities receive better pricing and additional benefits.

About 10-HDA

10-Hydroxy-2-decenoic acid (10-HDA) are unique hydroxy fatty acids found exclusively in Royal Jelly. These compounds possess antibacterial and antimicrobial properties that help strengthen the immune system. The concentration of 10-HDA serves as a key quality indicator for royal jelly, as it is not present in other bee products.
