Model Number	18HN-27-2
Brand Name	Bee Star
Product Name	High Quality Plastic Queen Cage
Material	Plastic
Color	White
Type	Queen Use Product
Used For	Queen Rearing
Showroom Location	None
Video Outgoing-Inspection	Provided
Machinery Test Report	Not Available
Marketing Type	Ordinary Product

Product Description

Plastic Collapsible Queen Cage Rearing System Beekeeping Equipment

This product is a professional plastic beekeeping tool for queen isolation, rearing and temporary storage, designed for artificial queen rearing operations on beekeeping farms. It adopts an integrated collapsible modular structure, matching the standard artificial queen rearing workflow of commercial apiaries.

Product Structure & Material Parameters

Main material: Food-grade PP plastic, integrated injection molding, resistant to corrosion from bee colonies, not easy to deform or break

Structural design: Full hollow grid ventilation structure + double-side queen cell fixing positions + middle worker bee barrier grille + bottom collapsible inserting tooth structure

Functional design: Collapsible storage, bidirectional queen cell fixing buckle, worker bee access isolation grille, independent sealed isolation chamber for queen bee

Applicable scenarios: Artificial queen rearing, queen temporary storage, queen bee mailing & transportation, virgin queen mating isolation management

Working Principle & Practical Features

The hollow grid structure ensures internal air circulation, preventing queen suffocation from stuffy environment. The middle grille allows worker bees to feed the queen, meanwhile blocks worker bees from damaging queen cells and queen bee. Double hexagonal buckles are used to fix queen cell cups and mature queen cells. The bottom inserting tooth structure can be directly fixed on honeycombs with stable installation. The collapsible design greatly reduces storage and transportation space, suitable for bulk wholesale purchase.

It is a standardized professional device for apiary queen rearing, with stable structure and simple operation. Compatible with artificial rearing of Italian bees and Chinese bees. Pure physical mechanical structure without extra electric parts, with low failure rate in long-term use.

Company Profile

Bee Star—the most professional one-stop beekeeping platform, who is the first beekeeping group company consisting of several beekeeping products factories. For helping our customers to get the best quality, most competitive price and best after-sales service, we insist our everlasting business principle: Be honest and sincere to all customers, only supply 100% pure natural bee products and good quality beekeeping accessories.

Our most popular products in China and the world are: 100% Pure Natural honey, Beeswax, bee pollen, royal jelly and honey extractors, beehives, bee smokers, beekeeping outfits. Wide variety of categories and products, as well as our competitive price, allow us to meet our clients demands. No matter where you are from, what kind of beekeeping products you like, what beekeeping habit you have, here you can find the special beekeeping products to satisfy you and give you a very perfect experience.

Bee Star was established from a beekeepers' family since 1950. Beekeeper Fang was very well known in Henan province because he was very professional in beekeeping, his bee colonies were always more stronger than other and could crop more honey, royal jelly and pollen. Because of the real love of bees, he was very diligent in developing beekeeping industry business. His honey, pollen, royal jelly so on products were very popular in the local market.
