

BEESTAR 110mm Length Flexible Spiral Shaft Queen Bee Grafting Tool with Soft Silicone Tip for Beekeeping

Our Product Introduction

for more products please visit us on bee-keepingequipment.com

Basic Information

- Place of Origin: China
- Brand Name: Bee Star
- Certification: CE
- Model Number: 18HN-58-1
- Minimum Order Quantity: 50pcs
- Price: US\$0.78/ pcs---US\$0.65/pcs
- Packaging Details: carton packing
- Delivery Time: 10--25 working day, depending on the order quantity
- Payment Terms: L/C,T/T,Western Union
- Supply Ability: 10000pcs per month

Product Specification

- Product Name: Beekeeping Grafting Tool
- Material: Plastic
- Used For: Removing Bee Larvae
- Colour: As Shown In The Picture
- MOQ: 50pcs
- Application: Bee Farm
- Highlight: Flexible Spiral Shaft Queen Bee Grafting Tool, 110mm Length Beekeeping Grafting Needle, Soft Silicone Tip Larvae Transfer Tool

Product Description

BEESTAR Economic Durable Plastic Queen Bee Larvae Transfer Beekeeping Grafting Tool Needle Grafting Tool for Beekeeping

Specification

Material	Plastic
Product Usage	Grafting tool
Size	110mm 2pcs/box
Type	Economic Grafting tool

Product Description

BEESTAR Economic Durable Queen Bee Larvae Transfer Grafting Needle Beekeeping Tool

This product is a professional precise transfer tool for queen bee larvae, specially designed for artificial queen rearing procedures. It is standard supporting beekeeping equipment for apiaries, with a **total length of 110mm**, adopting flexible coiled shaft structure, compatible with artificial larvae grafting operations of Italian bees and Chinese bees.

Product Parameters & Structural Material

Overall size: Standard total length 110mm

Tail drive: Built-in return spring inside transparent tube + red push rod, press & rebound structure, labor-saving and controllable operation

Shaft structure: Black spiral flexible corrugated soft shaft, bendable at multiple angles, anti-breakage and non-rigid

Grafting tip: Available in two versions of soft silicone/nylon flexible tip, soft touch, fits larval body surface, non-damaging physical contact with larvae

Package configuration: Portable transparent storage box, 2 pieces per box, easy for apiary carrying, storage and bulk wholesale

Working Principle & Practical Features

The built-in spring rebound structure realizes automatic telescopic grafting tip. Combined with flexible bendable soft shaft, it can accurately pick up queen larvae deep inside honeycomb cells. The soft tip maximizes avoidance of mechanical damage to larvae, improving larvae acceptance rate and survival rate in artificial queen rearing. The spiral soft shaft adapts to irregular angles of honeycombs, with flexible and smooth operation. Main plastic parts are durable and anti-aging, corrosion-resistant to bee colony environment, not easy to crack or deform in long-term use.

It is an economic industrial-grade apiary queen rearing tool, pure physical mechanical structure without extra accessories, with low operation threshold, suitable for bulk purchase of small & medium apiaries and large-scale queen breeding bases.

Company Profile

Bee Star—the most professional one-stop beekeeping platform, who is the first beekeeping group company consisting of several beekeeping products factories. For helping our customers to get the best quality, most competitive price and best after-sales service, we insist our everlasting business principle: Be honest and sincere to all customers, only supply 100% pure natural bee products and good quality beekeeping accessories.

Our most popular products in China and the world are: 100% Pure Natural honey, Beeswax, bee pollen, royal jelly and honey extractors, beehives, bee smokers, beekeeping outfits. Wide variety of categories and products, as well as our competitive price, allow us to meet our clients demands. No matter where you are from, what kind of beekeeping products you like, what beekeeping habit you have, here you can find the special beekeeping products to satisfy you and give you a very perfect experience.

Bee Star was established from a beekeepers' family since 1950. Beekeeper Fang was very well known in Henan province because he was very professional in beekeeping, his bee colonies were always more stronger than other and could crop more honey, royal jelly and pollen. Because of the real love of bees, he was very diligent in developing beekeeping industry business. His honey, pollen, royal jelly so on products were very popular in the local market.
