Single Row Fiber Bee Brush With Wooden Handle For Beekeeping

Bee Brush Overview

A bee brush is a soft-bristled tool designed to gently and harmlessly remove bees from surfaces without causing injury. Featuring long, soft, non-rigid bristles, it provides the perfect balance of gentleness for delicate comb work and firmness for removing bees from frames, equipment, or beekeepers.

Material Options: Soft fiber, horse hair, and bristle

Handle Varieties: Plastic or wooden handles available in straight style, streamlined style, thick handle, and thin handle configurations

Customization: Available in one to five rows with flexible handle and row combinations for large requirements

Shipping Information

SHIPPING & PACKING

WE DO OUR BEST TO SERVE YOU

We will support three modes of logistics
by land, sea and air

Small Orders: Shipped via air (FEDEX or DHL)

Large Orders: Shipped via sea freight

Frequently Asked Questions

Do You Offer OEM/ODM Service?

Yes, we have extensive experience providing OEM/ODM services for many of our products. We offer design services and can apply buyer labels to meet your specific requirements.

What is your MOQ? Can we get a small order for the first time?

We maintain low minimum order quantities and offer free samples for evaluation and testing purposes.

How About the Shipping Cost?

Small orders are shipped by air via carriers like FEDEX or DHL. Larger orders are typically shipped by sea for cost efficiency.
