

## ABS Rhombus Beehive Entrance Reducer Anti-Escape Device with Drones Release Feature

Our Product Introduction

for more products please visit us on [bee-keepingequipment.com](http://bee-keepingequipment.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: Bee star
- Model Number: 17WH-03
- Minimum Order Quantity: 100pcs
- Price: US\$0.49/ pcs---US\$0.6pcs
- Packaging Details: carton package
- Delivery Time: 5-30 working day, depending on the order quantity
- Payment Terms: L/C,T/T,Western Union
- Supply Ability: 100000

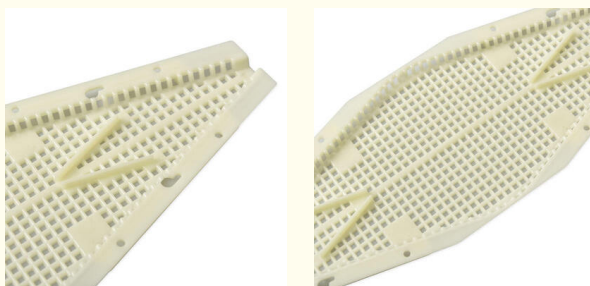

### Product Specification

- Name: Anti-escape Entrance Reducer
- Material: ABS
- Item Number: 17WH-03
- Color: White
- Use For: Beehive Tools
- Highlight: **ABS beehive entrance reducer, rhombus anti-escape bee device, beehive drone release accessory**

### ABS Rhombus Escape Device Anti Escape Beehive Entrance Reducer

#### Anti Escape Beehive Entrance Reducer

##### Anti-Escape Bee Entrance Reducer Features

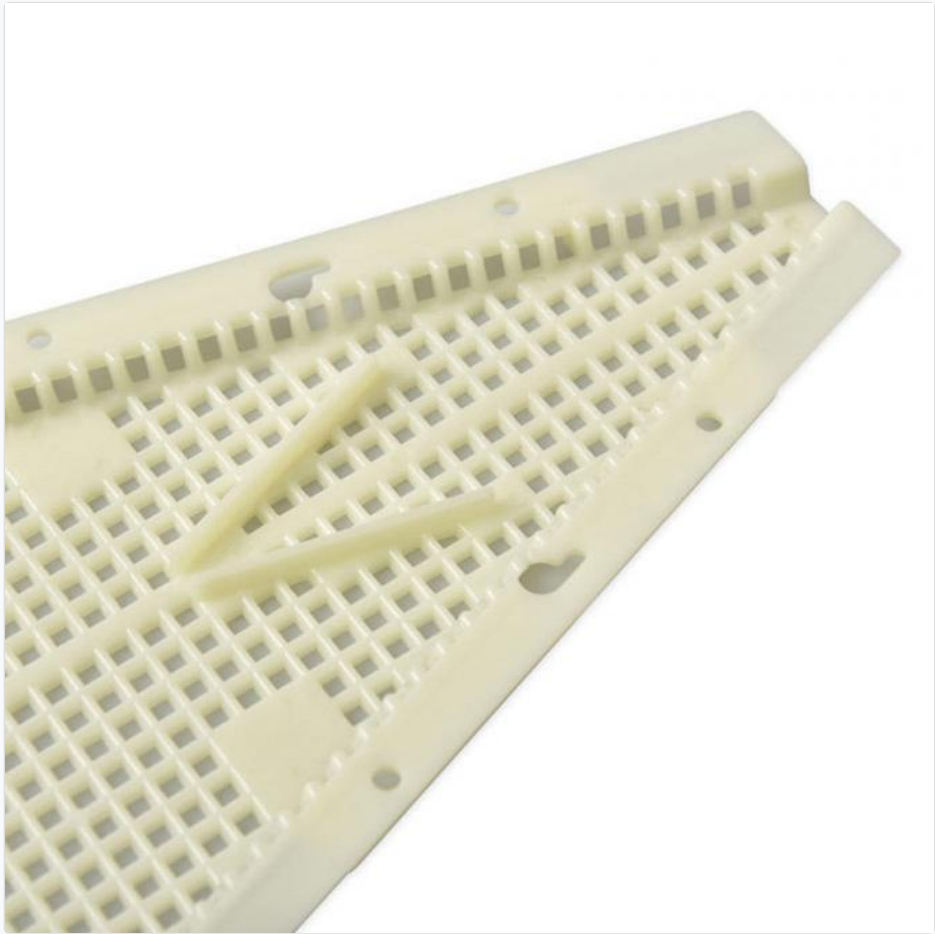

Core functions: Preventing queen bee absconding, limiting robbing bee intrusion, and controlling hive entrance size for easier beekeeping management.

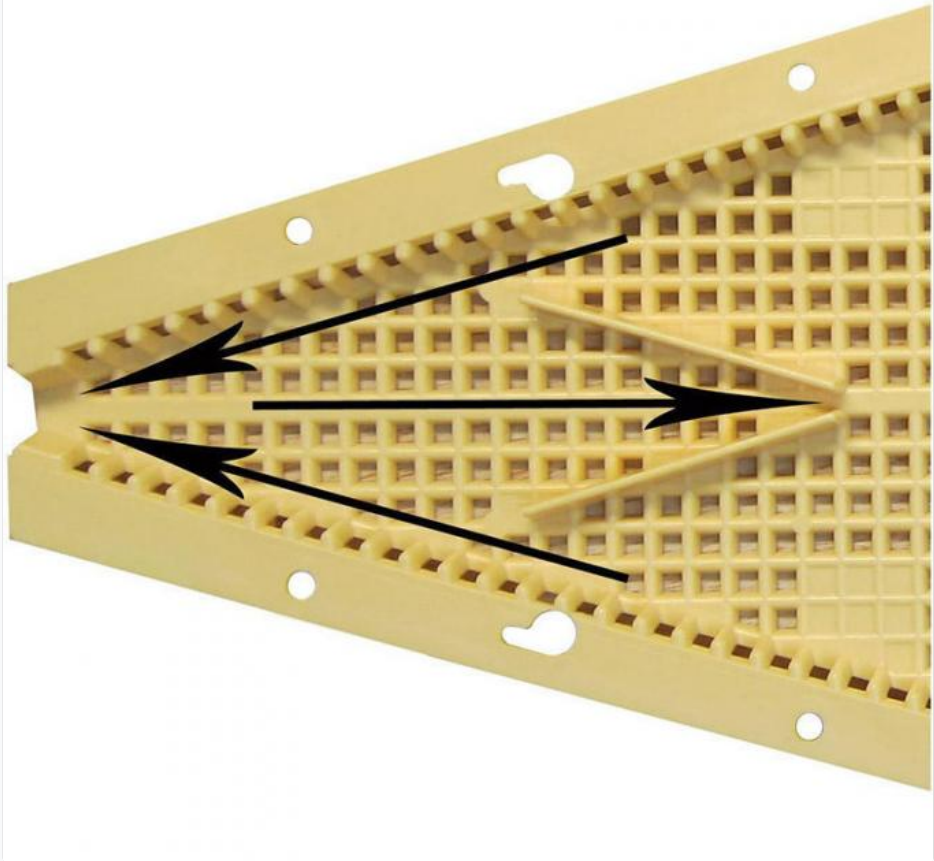

Beekeeping scenarios: Primarily used for new swarms, during queen rearing periods, or before the honey flow to protect weak colonies and reduce the risk of absconding.

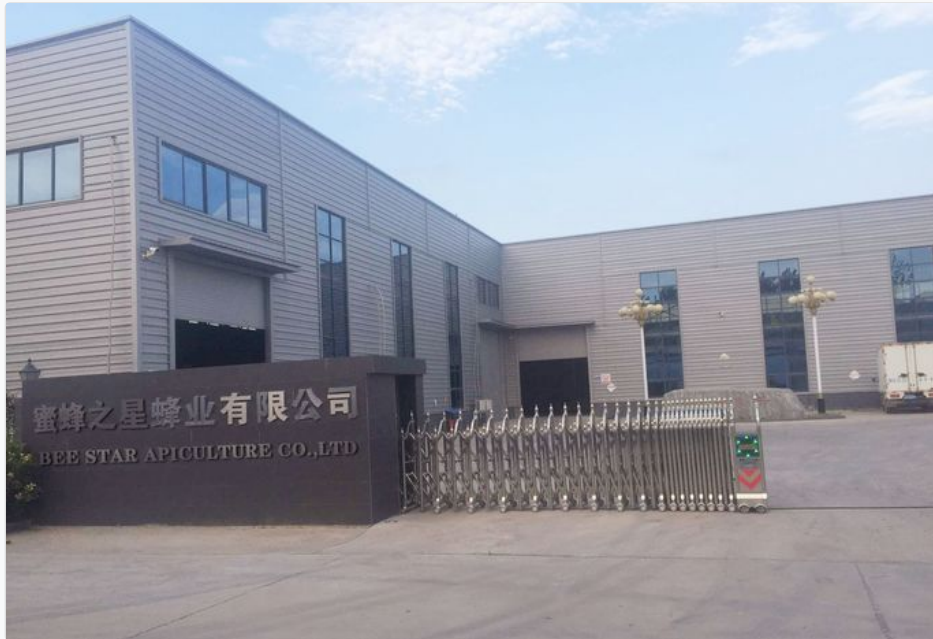

##### Instructions for Use

- 1. Bee Separation Management:** Know the situation of bee separation in advance. Clear the base on the first day of bee inspection, and remove drones from the first to fifth day. Open the sliding plate to let drones pass through and fly out, preventing their return to the box.
- 2. Queen Bee Protection:** Close the slide from the sixth to fifteenth day to prevent the queen bee from flying out during bee separation. Check the bee colony before the new queen emerges to prevent the new queen from killing the old queen bee.
- 3. Anti-Theft Feature:** The 3.7mm seam of the outer layer prevents bee theft. When bees attempt to steal, the outer layer folds on the inner layer, making entry difficult while not affecting normal bee movement in and out.
- 4. Pest Protection:** Prevents wasp bites and entry of honey-stealing moths at night.

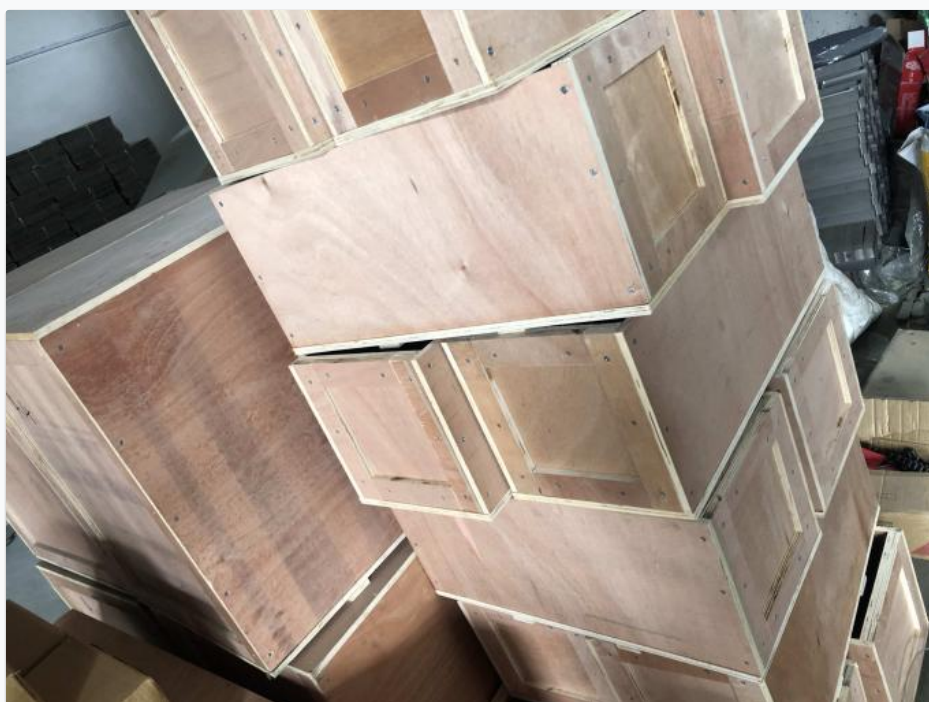

### Company Profile

Bee Star is your one-stop shop for beekeeping equipment and supplies. Our wide range of categories and product diversity, combined with competitive prices, allows us to satisfy different client demands across South America, Europe, and worldwide. Based in Chengdu, China, our experienced team provides exceptional service through competitive pricing, regular quality checks, and handling necessary documentation to facilitate smooth import processes to your country. We take pride in our business approach and the strong relationships we've built with customers worldwide.

## Workshop

## Our Advantages

## Frequently Asked Questions

### 1. Are You Factory/Manufacturer or Trading Company?

We are a factory for beekeeping products in China with over 10 years of experience. You can trust the quality and price of our products.

### 2. Do You Offer OEM/ODM Service?

Yes, we have rich experience in offering OEM/ODM services for many of our products. We offer design services and buyer labels.

### 3. What is your MOQ? Can we get a small order for the first time?

Yes, you can place small orders for the first time. However, small quantities cannot be shipped by sea, so prices may be slightly higher than for larger quantities.

#### 4. How About the Shipping Cost?

For smaller orders, we ship via air or express methods like FEDEX or DHL. For larger orders, we use sea shipping. We always provide shipping quotes and choose the most cost-effective option for you.
